

DYLAN HAUGHTON

I have over 30 years experience working as an architect in the UK, Hong Kong, the United States and Mexico. I was brought up and educated in the UK and have been a member of the RIBA since 1996. I have worked as a senior designer and a project architect and since 2004 have been practicing independently on a range of residential, commercial and public projects. I have developed a wide range of experience from client facing work and concept design through to detail design, specification writing and building.

Core Skills

Design

I use hand drawn sketches from initial concept to fine detail, alongside CAD and 3D information. I use physical sketch models where possible. Interested in the power AI can lend us and integrate it when I can.

IT

CAD Microstation
 Autocad
 Vector Works

3D Sketch Up
 Some Revit Experience

2D Photoshop
 InDesign
 Visual Studio

Text MS Word, Excel
 NBS Create, Scheduler, Architecture

Construction

I have worked as a project architect administering traditional and design and build contracts in the UK. I've worked as a site based construction manager directly managing sub-contractors, programme and budget. I have also acted as a main contractor pricing work for clients and engaging sub-contractors directly.

Languages

I've drafted numerous bid documents, feasibility studies and led client presentations for my own projects and for others.

I worked as an architect in a Spanish-speaking environment for three years, learning much of the vocabulary necessary for that role.

I can communicate in French to a reasonable standard and am currently learning Croatian.

Other

Swimmer (solo channel 2017)
Trainee Tai Chi teacher
Trainee Spoon Carver
Song Writing and Guitar

selected experience

2026 Y Gors Ysgubor (Barn Conversion)
